1 Notation

$i \iff$ Book index
$j \iff$ Chapter index
$k \iff$ Verse index

$B \iff$ The Holy Bible
$B_i \iff$ A Book in the Holy Bible
$C_{i,j} \iff$ A Chapter in B_i
$V_{i,j,k} \iff$ A Verse in $C_{i,j}$
$V_{*,*,*} \iff$ Any Verse in B

$d_i \iff$ A set of disciples
$d_{i,j} \iff$ A subset of disciples in d_i
$d_{i,j,k} \iff$ A disciple in $d_{i,j}$

$s \iff$ Spiritual matter
$max_T \iff$ Maximum true message
$max_T|B_i, s \iff max_T$ given B_i and s
$max_T|s, C_{i,j} \iff max_T$ given $C_{i,j}$ and s
$max_T|s, V_{i,j,k} \iff max_T$ given $V_{i,j,k}$ and s
$max_T|s, V_{*,*,*} \iff max_T$ given $V_{*,*,*}$ and s

$rep(d_i, B_i|s) \iff d_i$ represents B_i given s
$rep(d_{i,j}, C_{i,j}|s) \iff d_{i,j}$ represents $C_{i,j}$ given s
$rep(d_{i,j,k}, V_{i,j,k}|s) \iff d_{i,j,k}$ represents $V_{i,j,k}$ given s
$rep(d_{i,j,k}, V_{*,*,*}|s) \iff d_{i,j,k}$ represents $V_{*,*,*}$ given s

2 Representation

$$rep(d_i, B_i|s) = max_T|s, B_i$$

$$rep(d_{i,j}, C_{i,j}|s) = max_T|s, C_{i,j}$$

$$rep(d_{i,j,k}, V_{i,j,k}|s) = max_T|s, V_{i,j,k}$$

$$rep(d_{i,j,k}, V_{*,*,*}|s) = max_T|s, V_{*,*,*}$$

3 Questions

1. What are the effects of $rep(d_i, B_i|s)$, $rep(d_{i,j}, C_{i,j}|s)$, $rep(d_{i,j,k}, V_{i,j,k}|s)$, and $rep(d_{i,j,k}, V_{*,*,*}|s)$?

2. Is minimal scripture misinterpretation one of the effects?

3. Among $rep(d_i, B_i|s)$, $rep(d_{i,j}, C_{i,j}|s)$, $rep(d_{i,j,k}, V_{i,j,k}|s)$, and $rep(d_{i,j,k}, V_{*,*,*}|s)$, which of them has lowest probability of scripture misinterpretation?

4 Final Note

I posed the questions in precise language to avoid ambiguity.

Answers to these questions will require $rep(d_i, B_i|s)$, $rep(d_{i,j}, C_{i,j}|s)$, $rep(d_{i,j,k}, V_{i,j,k}|s)$, and $rep(d_{i,j,k}, V_{*,*,*}|s)$ experiments performed in the Church.

An ecclesiastical title for these experiments is Discipleship Program.
